About the Website - FraGrant

Selling perfume to help college students ! It is an ecommerce websites that implements some of the basic functionality of an ecommerce website to be able to sell the perfume. We noticed the problems that Computer Science students have and so we attempted to solve them.

The logo for FraGrant, featuring the word "Fra" in blue and "Grant" in green, both in a stylized, cursive-like font.

Product Descriptions

Awake: Helps students stay awake during college exams. It reduces their need to sleep and causing them to operate on max productivity

Relax: This will help calm computer science students nerves when interacting with other people

Neutralize: This perfume will neutralize and cancel out a computer science students odor. It will help them smell nice and reduce the amount of time wasted taking a shower.

Let's demo.
